PROFESSIONAL SUMMARY

Senior Cross-Platform Developer with 6+ years of experience (since 2019), specializing in building high-performance mobile and desktop applications. Expert in **.NET MAUI, Xamarin, and Flutter**, with a proven track record of migrating legacy systems, optimizing UI/UX, and enhancing application performance across production environments. Strong background in Full-Stack development, including Backend APIs and SQL databases.

PROFESSIONAL EXPERIENCE

Senior Cross-Platform Developer

June 2025 – Present

Compu Master Business Solutions | Cairo, Egypt

- Leading the development of white-label eCommerce solutions, customizing high-scale applications to meet diverse client requirements.
- Managing Promaster (ERP-integrated POS app), focusing on seamless data synchronization and performance optimization.
- Improving overall system architecture, UI consistency, and resolving complex technical debt.

Senior Mobile Developer

March 2024 – June 2025

Daldart | Cairo, Egypt

- Architected and maintained cross-platform mobile apps, ensuring high availability and scalability.
- Managed complex state using Bloc and Provider patterns in Flutter environments.

Mobile & .NET Developer

June 2022 – July 2023

Encore Software LTD | Giza, Egypt

- Developed cross-platform solutions and integrated Backend services using .NET technologies.
- Optimized API integration for real-time data processing.

Xamarin Developer

December 2021 – June 2022

K-Apps | Al Kuwait

- Focused on building and shipping mobile applications using the Xamarin framework.
- Developed HR systems managing complex roles and permissions for healthcare institutions.
